Grammar القواعد اللغوية

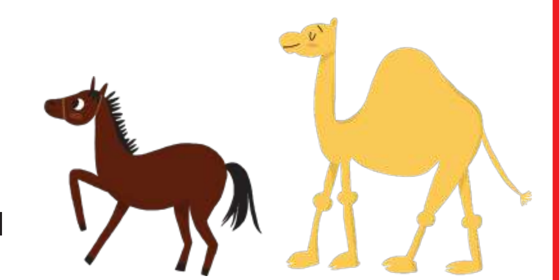

Comparison: Comparatives

* **Use:** الاستخدام

- We use the comparative form of adjectives to compare two people or things.

- نستخدم صيغة المقارنة بين اثنين لكى نقارن بين شخصين أو شيئين :

* **Example:** مثال

- A camel is taller than a horse.

المعنى أن : الجمل أطول (أكثر طولًا) من الحصان .

* **Form:** التكوين

- To make a comparative adjective, we add '–er' to the one-syllable adjective and use the word 'than' after it.

لكى نكوّن صيغة المقارنة بين اثنين نضيف '–er' للصفة ذات المقطع الواحد ونستخدم بعدها كلمة 'than' :

small → smaller than　　　　old → older than

- A fennec fox is smaller than a camel.

- For one-syllable adjectives with a vowel in the middle, we double the last letter:

للصفات ذات المقطع الواحد التى تحتوى على حرف متحرك فى المنتصف ، نضاعف الحرف الأخير :

big → bigger than　　　　fat → fatter than

hot → hotter than　　　　thin → thinner than

- Dogs are thinner than elephants.

- For one-syllable adjectives that end in '–e,' we add '–r' only:

للصفات ذات المقطع الواحد التى تنتهى بالحرف '–e' نضيف '–r' فقط :

nice → nicer than large → larger than

- I think a cat is nicer than a dog.

- For adjectives that end in '–y', we remove the '–y' and add '–ier':

للصفات التى تنتهى بالحرف '–y' نحذف الحرف '–y' ونضيف '–ier' :

heavy → heavier than happy → happier than

- An elephant is heavier than a horse.

- For long adjectives, we use 'more' / 'less' before the adjective:

للصفات الطويلة ، نستخدم (أكثر more) أو (أقل less) قبل الصفة ، ونضع أيضًا كلمة 'than' بعدها :

beautiful → more beautiful than ...أكثر جمالًا من...

dangerous → less dangerous than ...أقل خطورة من...

- I think a horse is more beautiful than a camel.

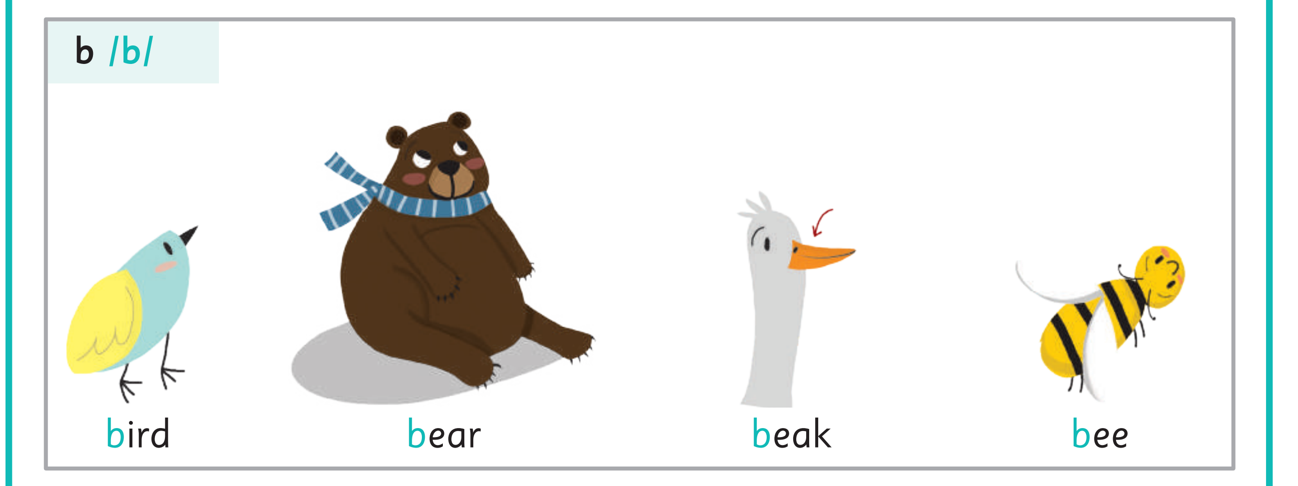

Adjectives الصفات		Comparatives المقارنة بين اثنين
noisy	صاخب	A camel is noisier than a horse.
tall	طويل القامة	Ali is taller than Said.
strong	قوى	A lion is stronger than a fox.
big	كبير الحجم	An elephant is bigger than a lion.
